

Play is the key way children learn about themselves, others and the world they live in. It is essential to their learning, development, health, and physical, mental and social well-being – and it's FUN! Play provides the building blocks to be ready for school.

Bubbles

Bubbles are an easy activity to take with you and good to have handy when children may have to wait.

Did you know?

Controlling breath to blow bubbles can be calming for both children and adults.

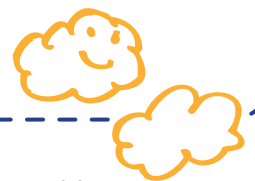

Add language

Bubbles outside can be great for talking about the effects of the wind (e.g. speed and direction), and other early science concepts.

Variations

Children will love experimenting with bubble wands of different shapes and sizes.

Try blowing through a straw into a cup or bowl of bubble mix. Add some food dye for even more fun! You can gently press blank paper against the mountain of coloured bubbles to create great pictures.

- Playgroup WA has a treasure trove of play activities for babies, toddlers and 3-5 year olds, for home and playgroup. These play activities cover a balanced diet of play across sensory, movement, language and thinking skill areas.

You can find them at www.playgroupwa.com.au/playideas or visit www.facebook.com/playgroupwa
