Why go to Playgroup?

Children under five are going through a stage of rapid brain and skill development. For optimum development your young child needs a stimulating environment to play and learn.

Playgroups offer babies, toddlers and young children a wide variety of early learning experiences. It's a great way for your child to learn about the world, make friends and develop social skills.

Playgroup is an affordable and flexible way for mums, dads, grandparents and caregivers to meet to share ideas and experiences. Many long-term friendships begin at Playgroup.
