

## Play Activity: Music and Song Time

Helping young children to learn and grow

Incorporating singing and music into routines and play in the early years has a positive influence on your child's early development. Young children develop

- ✓ numeracy, literacy and emotional skills.
- ✓ motor skill
- ✓ thinking skills
- ✓ creativity
- ✓ social language
- ✓ memory skills

Songs also help children gain knowledge about a range of concepts including maths, spatial and directional concepts (eg up, down, high, low, counting, over, under)
